Description

These products are old technology and demand for these types of TCXO is dropping rapidly. It is no longer commercially viable to retain these products in production. Smaller and cheaper products are available with similar electrical and environmental characteristics. Refer to our ranges of SM TCXOs on our website.

To support existing customers there may be a last time buy opportunity until the end of January 2006, with production ceasing at the end of March 2006. However, acceptance of any orders will depend upon availability of components. Last time buy orders are non-cancellable.
