

END OF LIFE WARNING

Document ref:	PCN140203A v1.0
Issued:	03 Feb 14
Authorised:	JPG

Product affected

GTXO-92

Description

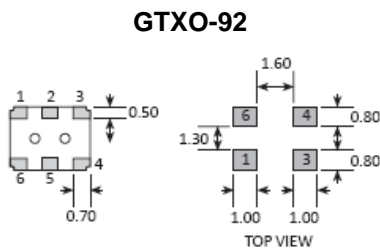

A part of continuous product improvement we are introducing the GTXO-91, an improved specification 3225 form TCXO. Our current GTXO-92 series will be withdrawn from production in Q4 2014 or as piece parts run out.

GTXO-92 is therefore NOT recommended for new designs.

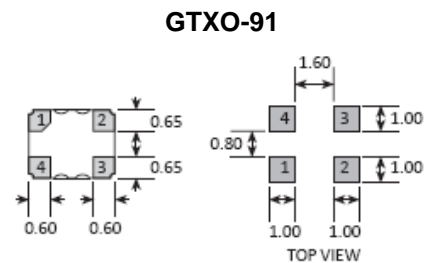

To support existing customers, we will endeavour to support last-time buys for existing projects up to Sep 2014, or later if stocks allow. Acceptance of any orders will depend upon availability of components. Last time buy orders are non-cancellable.

Alternative product

Our 4-pad GTXO-91 is a drop-in replacement for GTXO-92, with identical electrical connections to the four corner pads. (The GTXO-92 has 6-pads, with pads 2 and 5 not connected).

PAD	CONNECTION
1	Ground or Freq adjustment
2	Not connected
3	Ground
4	Output
5	Not connected
6	Supply
