

FREE OF CONFLICT MINERALS DECLARATION

We, Golledge Electronics Ltd, are aware of the fact that the mining activities in Democratic Republic of the Congo and its neighboring countries (collectively, "DRC Areas") are fueling conflicts and human rights abuses by financing armed groups.

In light of the above, Golledge Electronics Ltd is working with all our relevant suppliers to ensure that, to the best of our ability and knowledge, our products do not contain conflict minerals (specifically Tantalum (Ta), Tin (Sn), Gold (Au), and Tungsten (W)) originating from DRC Areas.

Sourcing Policy

We ask all our relevant suppliers to complete the EICC Conflict Minerals Reporting Template (CMRT). All have done so.

We will not engage new (potential) suppliers without a complete and current CMRT, affirming complete absence of conflict minerals originating from DRC Areas.

We regularly review the CMRT status of existing suppliers. Declaration of conflict minerals originating from DRC Areas will result in supplier disqualification. Suppliers providing CMRTs not showing use of conflict minerals originating from DRC Areas, but being incomplete or out of date, have their "supplier rating" down-graded. The supplier rating score influences the choice of supplier for any order, and alternative suppliers are sought for those with low supplier ratings.

For and on behalf of Golledge Electronics Ltd.
